Bobby Chhabra, M.D. will be the UCSD Department of Orthopaedic Surgery’s 6th Wayne & June Akeson Visiting Professor. Dr. Chhabra’s CV cannot be described fairly in a short summary. He is a nationally and internationally respected clinician and researcher. His subspecialty in Orthopaedic Surgery is Hand and Upper Extremity, with particular focus on hand, wrist and elbow problems. His strengths and reputation are in elbow trauma and sports injuries, congenital hand and brachial plexus reconstruction through nerve transfer. He has had innumerable grants over his 10+ year career. He has 54 peer-reviewed publications (most in high tier journals), 123 invited publications, and 38 books/chapters. He is an internationally acclaimed and invited speaker with an abundance of Visiting Professorships. He is not just active, but a leader in many societies (e.g. AOA, ASSH, AAOS, Virginia Orthopaedic Society). He has a large array of awards and honors; and has received many best paper and teaching awards. It is an honor to have Dr. Chhabra at UCSD.
